INFORMATION TECHNOLOGY CONSULTING SERVICES

Everywhere you need it - Anytime you want it

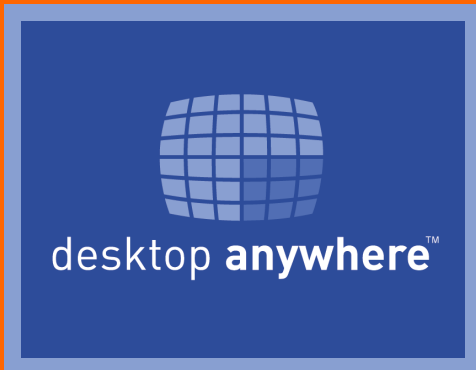

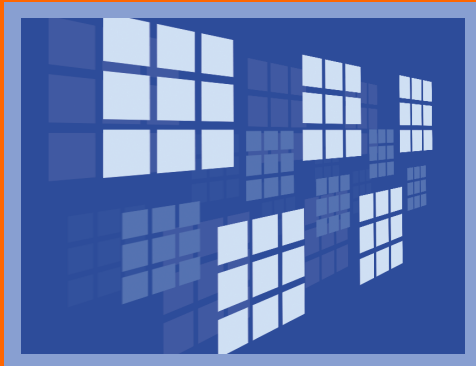

CONSULTING SERVICES

The IT Challenges You Face . . .

- Constantly changing requirements
- Increasing complexity
- Fluctuating demand for IT resources
- Personnel changes
- Special projects
- Technology assessment and planning

Desktop Anywhere™ Solutions:

Desktop Anywhere provides effective, comprehensive, and affordable Information Technology Consulting Services.

REDUCE costs by using Desktop Anywhere technical resources during periods of on-peak and off-peak demand. Focus on your core competencies while engaging our consultants for special projects and supplemental requirements.

SECURE the cost savings and efficiencies of deploying new technologies correctly the first time. Put our extensive experience to work for you. You will increase resource availability and usability while becoming even more secure.

IMPROVE your bottom line by increasing your team's productivity through utilization of improved technology. Get the specific technical resources you need, as you need them, without paying for day-to-day non-essential labor.

DESKTOP ANYWHERE PROVIDES:

- On demand expert technical staff
- Special project resources
- Transition services
- Project management services
- Technical support
- Technology strategic planning
