# SERVER CENTRIC SUBSCRIPTION SERVICES

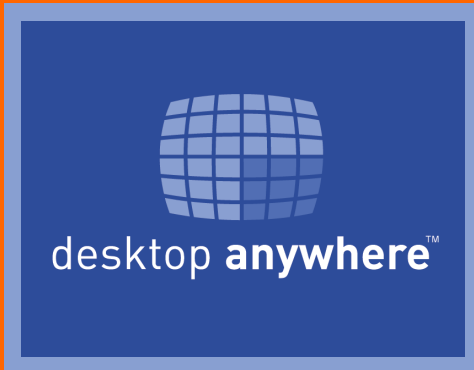

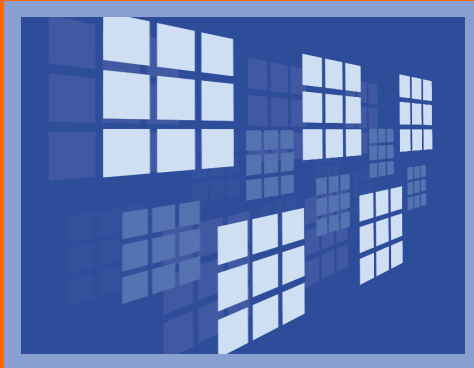

Everywhere you need it - Anytime you want it

## The IT Challenges You Face . . .

- Higher expectations with less resources
- Increasing complexity
- Increasing dependence on technology
- The need to reduce and better predict costs
- Secure, remote access
- The need for constant connectivity

## Desktop Anywhere™ Solutions:

Desktop Anywhere provides complete hosted IT solutions through a monthly subscription service model.

**MAXIMIZE** productivity by transitioning from your costly internal IT infrastructure to a subscription-based open architecture. Our service eliminates expensive internal information technology requirements and makes your applications available to your workforce wherever they are.

**INCREASE** reliability and security by delivering services from a centralized server centric architecture. Enjoy all the benefits of a world-class data center at a fraction of the cost.

**REDUCE** costs and start budgeting with confidence by breaking the cycle of having to constantly upgrade client hardware and software. You will reduce support costs significantly by shifting software applications from each desktop to a central server.

### DESKTOP ANYWHERE PROVIDES:

- Comprehensive subscription IT services
- Significantly reduced and more predictable costs
- Worry free computing
- Worldwide application availability for your entire workforce
- Increased reliability and security
- Complete technical support
